Muhammad Usman

Roll No: FA24-BCS-149

Assignment 1: Statement

Assignment 1 - Your Personal CV Page

Difficulty: Foundational. Covers: Lectures 3-6 (HTML & HTML5, Semantic HTML and Forms, CSS Fundamentals, the CSS Box Model). Folder: assignment-1/

Task: Build a single-page personal CV/résumé as a static HTML + CSS website - no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

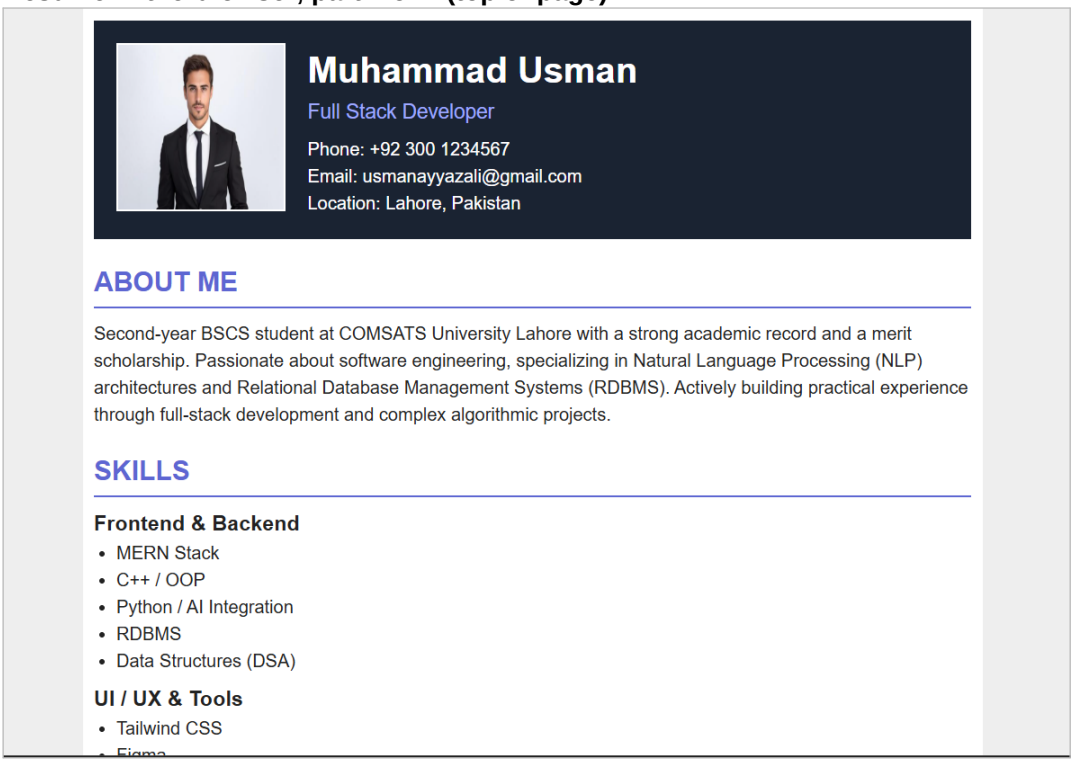

Your page must include, at minimum:

- A header with your name, a short professional tagline, and a photo (a placeholder image is fine).
- An "About Me" section.
- An "Education" section listing your academic history in a semantic list or table.
- A "Skills" section.
- A "Contact" section with a real <a href="mailto:..."> link and at least one social/portfolio link.
- Correct use of semantic HTML5 elements throughout - <header>, <nav>, <main>, <section>, <article>, <footer> as appropriate, not a page built entirely out of unstyled s.
- Styling entirely in a separate styles.css file (external stylesheet, not inline style="" attributes) using the box model correctly - sensible margins, padding, and borders, not everything jammed against everything else.

Deliverables in assignment-1/: index.html, styles.css, any images, and your completion PDF.

Resume in the browser, part 1 of 4 (top of page)

Muhammad Usman

Full Stack Developer

Phone: +92 300 1234567
Email: usmanayyazali@gmail.com
Location: Lahore, Pakistan

ABOUT ME

Second-year BSCS student at COMSATS University Lahore with a strong academic record and a merit scholarship. Passionate about software engineering, specializing in Natural Language Processing (NLP) architectures and Relational Database Management Systems (RDBMS). Actively building practical experience through full-stack development and complex algorithmic projects.

SKILLS

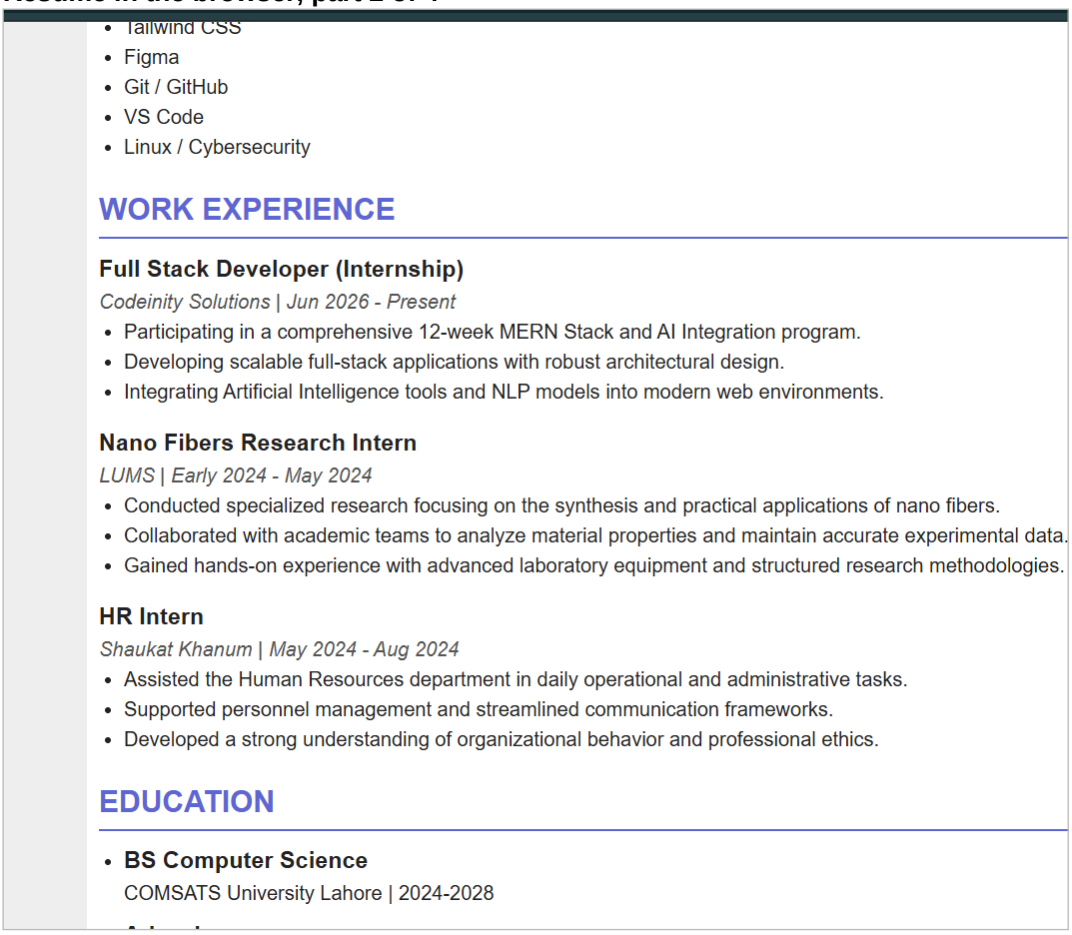

Frontend & Backend

- MERN Stack
- C++ / OOP
- Python / AI Integration
- RDBMS
- Data Structures (DSA)

UI / UX & Tools

- Tailwind CSS
- Figma

Resume in the browser, part 2 of 4

- Tailwind CSS
- Figma
- Git / GitHub
- VS Code
- Linux / Cybersecurity

WORK EXPERIENCE

Full Stack Developer (Internship)

Codeinity Solutions | Jun 2026 - Present

- Participating in a comprehensive 12-week MERN Stack and AI Integration program.
- Developing scalable full-stack applications with robust architectural design.
- Integrating Artificial Intelligence tools and NLP models into modern web environments.

Nano Fibers Research Intern

LUMS | Early 2024 - May 2024

- Conducted specialized research focusing on the synthesis and practical applications of nano fibers.
- Collaborated with academic teams to analyze material properties and maintain accurate experimental data.
- Gained hands-on experience with advanced laboratory equipment and structured research methodologies.

HR Intern

Shaukat Khanum | May 2024 - Aug 2024

- Assisted the Human Resources department in daily operational and administrative tasks.
- Supported personnel management and streamlined communication frameworks.
- Developed a strong understanding of organizational behavior and professional ethics.

EDUCATION

- **BS Computer Science**
  COMSATS University Lahore | 2024-2028

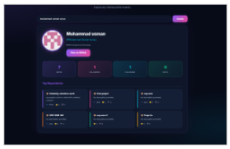

Resume in the browser, part 3 of 4

- **A-levels**
  Lahore College of Arts & Sciences | 2022-2024

FEATURED PROJECTS

JSON Placeholder Card
A simple card interface which allows you to get JSON. It shows the users, their posts and likes.
Tech: JSON, API

GitHub Profile Finder
A website to find GitHub profiles. It can be used to find each profile's top repos.
Tech: HTML, CSS, JavaScript

Weather App
A complete weather app that fetches real-time data from the OpenWeatherMap API and changes the background based on the current weather.
Tech: HTML, CSS, JavaScript, OpenWeatherMap API

ACHIEVEMENTS

- **Merit Scholarship** - COMSATS University Lahore
- **Project Lead** - AI Integrated chess game
- **Co-lead Developer** - VeriText Architecture Team
